- **DED:** Mobile dedicated slabber mill.
CUSTOM - suited for wide live edge table tops.

Cut wide live edge slabs up to 1.5m (5ft) with our cutting-edge solution featuring a Honda 13HP electric start gasoline engine.

Cutting length of 4.2m (14ft). Extendable to 6.2m (20ft) optional

- Double end oiler.
- Crank winch for easy feed.
- Centrifugal clutch for easy starting.
- Oscillating bar for efficient cutting.
- Easy 180° access for board removal and log loading.
- Easy belt and chain tensioning system.
- Easy alignment adjustment of the bars.
- Honda 13 HP engine.

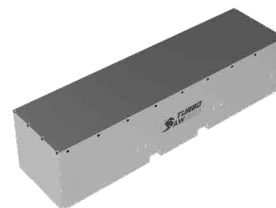

The basic configuration includes:

- Jockey wheel kit for easier storage of the sawmill.
- 2 x saw chains.
- Sharpener is not included (diamond stone bench grinder recommended).
- 2 years sawmill warranty.
- 3 years engine warranty.

DED-13M

MODELS	Slabber with bar and chain DED-13M
Power	 Motor HONDA 13 HP
Working length (m)	6.76 (22ft)
Working width (m)	2.89 (9.5ft)
Working height (m)	1.73 (5.6ft)
Weight (kg)	396 (873lb)

Cubic volume: 1.6 (91ft).
1 x crate. 575kg (1267lb).

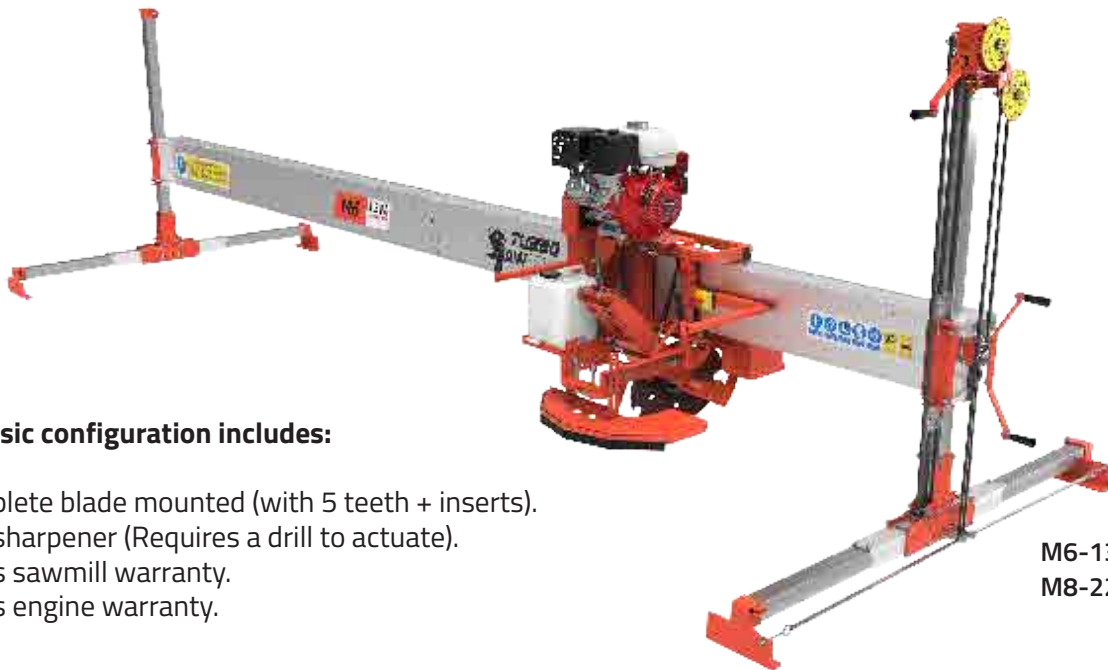

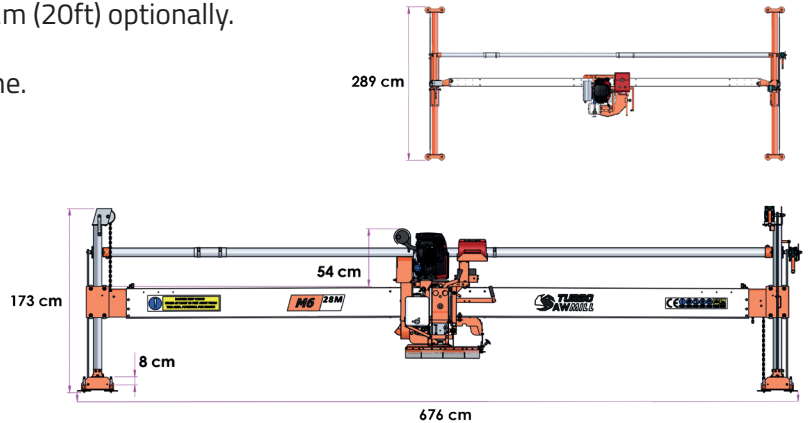

■ **M6 Warrior:** Ultra-lightweight mobile sawmill.

LIFE STYLER - For the land owner, lower cost and designed to be pushed through the log.

The Warrior range offers an incredibly lightweight sawmill that is designed for ultimate portability. Two people can easily carry the saw into tight spots and set it up around the log. The mill features dual carry handles and a frame that splits into smaller, more manageable pieces. This model is perfect for those who need a portable and efficient milling solution.

For logs preferably of 1.2m (4ft) diameter although all diameters can be cut.
Cutting length of 4.2m (14ft). Extendable to 6.2m (20ft) optionally.

- Double cut possible. No need to rotate the frame.
- One run produces an edged board.
- Manual feed.
- Electric or pull start.
- Easily replaceable 5-tooth blade.
- Single end horizontal and vertical sizing.
- Easy to operate and maintain.

M6-13M Warrior
M8-22M Warrior

The basic configuration includes:

- 1 complete blade mounted (with 5 teeth + inserts).
- Tooth sharpener (Requires a drill to actuate).
- 2 years sawmill warranty.
- 3 years engine warranty.

MODELS	Mobile sawmill manual model	Mobile sawmill manual model

Weight (kg)	280 (617lb)	310 (680lb)

Cubic volume: 0.78 (27ft).
2 x crates. 310kg (680lb).

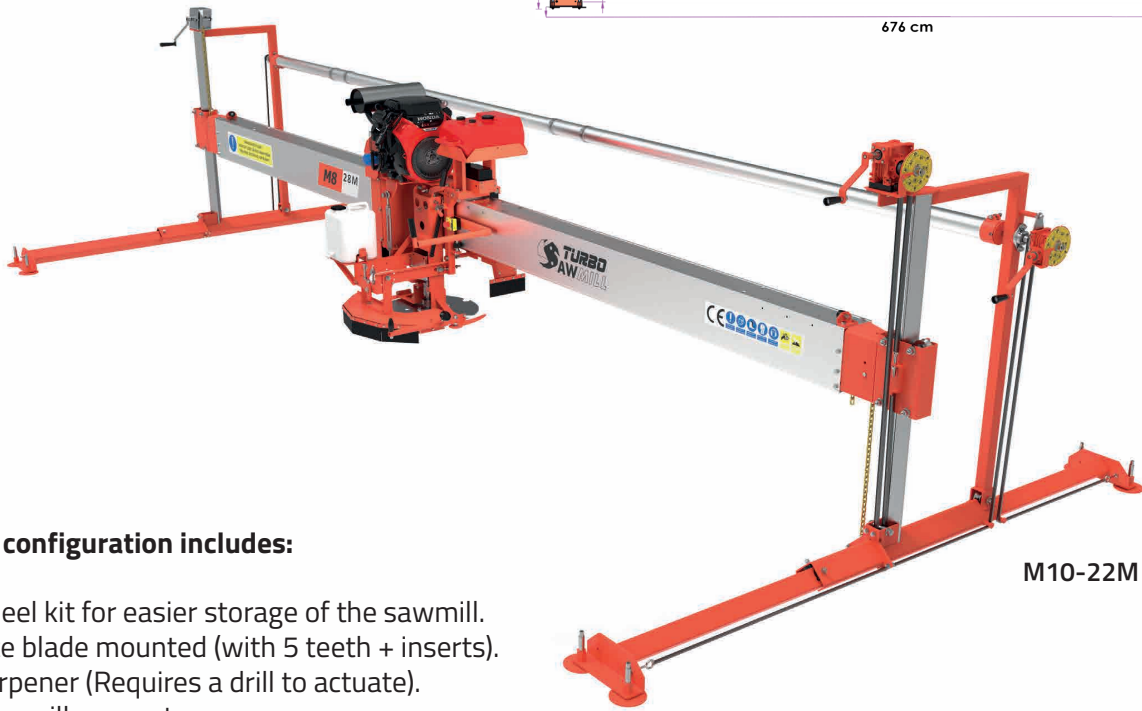

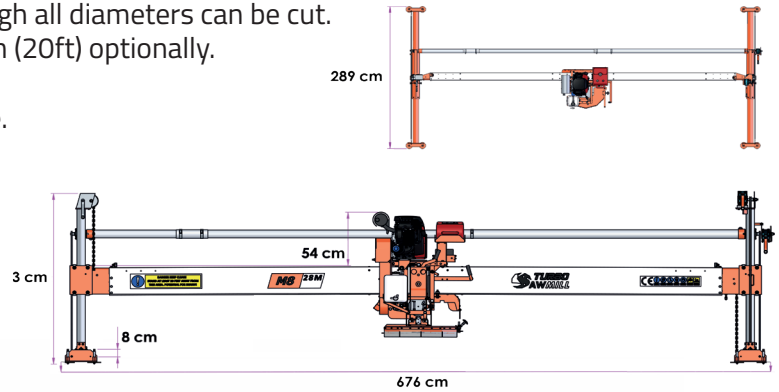

■ **M10:** Mobile sawmill with manual feed.

LIFESTYLER - For the land owner, extra versatile and designed to be pushed through the log.

Introducing the manual cutting solution with extra depth capability: a powerful and versatile model equipped with a robust 28HP Honda gasoline engine. This high-performance tool is designed to meet your toughest cutting needs, offering efficiency and reliability in every job. It cuts boards up to 250mm x 250mm (10 inches) and can double cut up to 225mm x 500mm (20 inches), ensuring you get the precise results you need every time.

For logs preferably of 1.2m (4ft) diameter although all diameters can be cut. Cutting length of 4.2m (14ft). Extendable to 6.2m (20ft) optionally.

Double cut possible. No need to rotate the frame.
 One run produces an edged board.
 Manual feed.
 Electric start.
 Easily replaceable 5-tooth blade.
 Single end horizontal and vertical sizing.
 Easy to operate and maintain.

M10-22M

The basic configuration includes:

- Jockey wheel kit for easier storage of the sawmill.
- 1 complete blade mounted (with 5 teeth + inserts).
- Tooth sharpener (Requires a drill to actuate).
- 2 years sawmill warranty.
- 3 years engine warranty.

MODELS	Mobile sawmill manual model	Mobile sawmill manual model

Cubic volume: 2.8 (98ft).
 2 x crates. 640kg (1410lb).

■ **M12:** Mobile sawmill with automated feed.

PROFESSIONAL - For production sawmilling, powered through the cut with a lever.

Introducing the automated cutting solution: a powerful and versatile model equipped with a robust 30HP Honda gasoline engine. This high-performance tool is designed to meet your toughest cutting needs, offering efficiency and reliability in every job. It cuts boards up to 300mm x 300mm (12 inches) and can double cut up to 275mm x 600mm (24 inches), ensuring you get the precise results you need every time.

For logs preferably of 1.2m (4ft) diameter although all diameters can be cut.
Cutting length of 6m (20ft). Extendable to 8m (26ft) optionally.

Double cut possible. No need to rotate the frame.

One run produces an edged board.

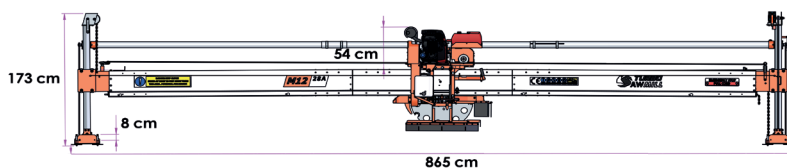

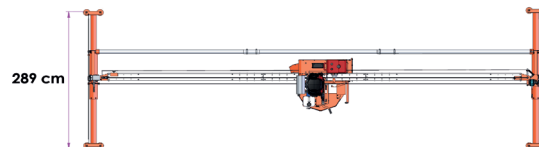

Automatic feed.

Electric start.

Easily replaceable 5-tooth blade.

Single end horizontal and vertical sizing.

Easy to operate and maintain.

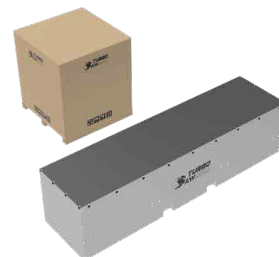

M12-28A

The basic configuration includes:

- Jockey wheel kit for easier storage of the sawmill.
- 1 complete blade mounted (with 5 teeth + inserts).
- Tooth sharpener (Requires a screwdriver).
- 2 years sawmill warranty.
- 3 years engine warranty.
