- **M7 POWERSAW:** Ultra-lightweight chainsaw powered mobile sawmill.  
**LIFE STYLER** - For the land owner, lower cost and designed to be pushed through the log.

The Powersaw offers an incredibly lightweight sawmill that is designed for ultimate portability. Two people can easily carry the saw into tight spots and set it up around the log. A revolutionary new concept that uses your own chainsaw to power the swingblade. This model is perfect for those who need a portable and efficient milling solution. **Built mostly from alloy with only a few small parts in powder coated steel.**

For logs preferably of 4ft diameter although all diameters can be cut.  
 Cutting length of 16ft. Extendable to 21ft optionally.

Double cut possible. No need to rotate the frame.  
 One run produces an edged board.  
 Manual feed.

**Uses your own chainsaw** (not supplied).  
 Welded narrow kerf blade (4.75mm kerf).  
 Double end horizontal and vertical sizing.  
 Easy to operate and maintain.

**The basic configuration includes:**

- 1 complete blade with 4 teeth.
- Tooth sharpener (Requires a drill to actuate).
- 1 year sawmill warranty.

MODELS	Mobile sawmill Manual model <b>POWERSAW</b>
Power	 Stihl Professional range
Working length	16ft
Working width	9.5ft
Working height	5.6ft
Weight	330lb

Crate 1: 27inch height x 29inch width x 34inch length  
 Crate 2: 14inch height x 15inch width x 244inch length,  
 Volume (Cube ft): 45, Weight (lb): 330lb

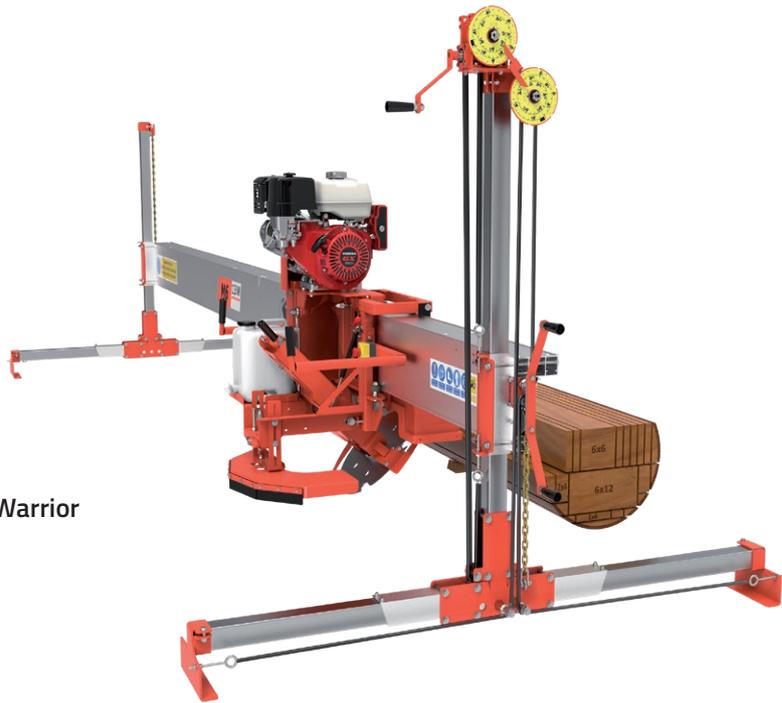

■ **M8 Warrior: Lightweight mobile sawmill (can be upgraded to auto feed).**

**LIFE STYLER** - For the land owner, lower cost and designed to be pushed through the log.

The Warrior range offers an incredibly lightweight sawmill that is designed for ultimate portability. Two people can easily carry the saw into tight spots and set it up around the log. The mill features dual carry handles and a frame that splits into smaller, more manageable pieces. This model is perfect for those who need a portable and efficient milling solution. **Now built with premium stainless steel and alloy construction.**

For logs preferably of 4ft diameter although all diameters can be cut.  
Cutting length of 14ft. Extendable to 20ft optionally.

- Double cut possible. No need to rotate the frame.
- One run produces an edged board.
- Manual feed.
- Electric and pull start.
- Easily replaceable 5-tooth blade.
- Single end horizontal and vertical sizing.
- Easy to operate and maintain.

M8-13M Warrior

**The basic configuration includes:**

- 1 complete blade mounted (with 5 teeth + inserts).
- Tooth sharpener (Requires a drill to actuate).
- 2 years sawmill warranty.
- 3 years engine warranty.

MODELS	Mobile sawmill Manual model M8-13M Warrior
Power	 Motor Honda 13 HP

Working width	9.5ft
Working height	5.6ft
Weight	617lb

Crate 1: 27inch height x 29inch width x 34inch length  
Crate 2: 20inch height x 19inch width x 21inch length  
Crate 3: 14inch height x 15inch width x 122inch length,  
Volume (Cube ft): 35, Weight (lb): 700

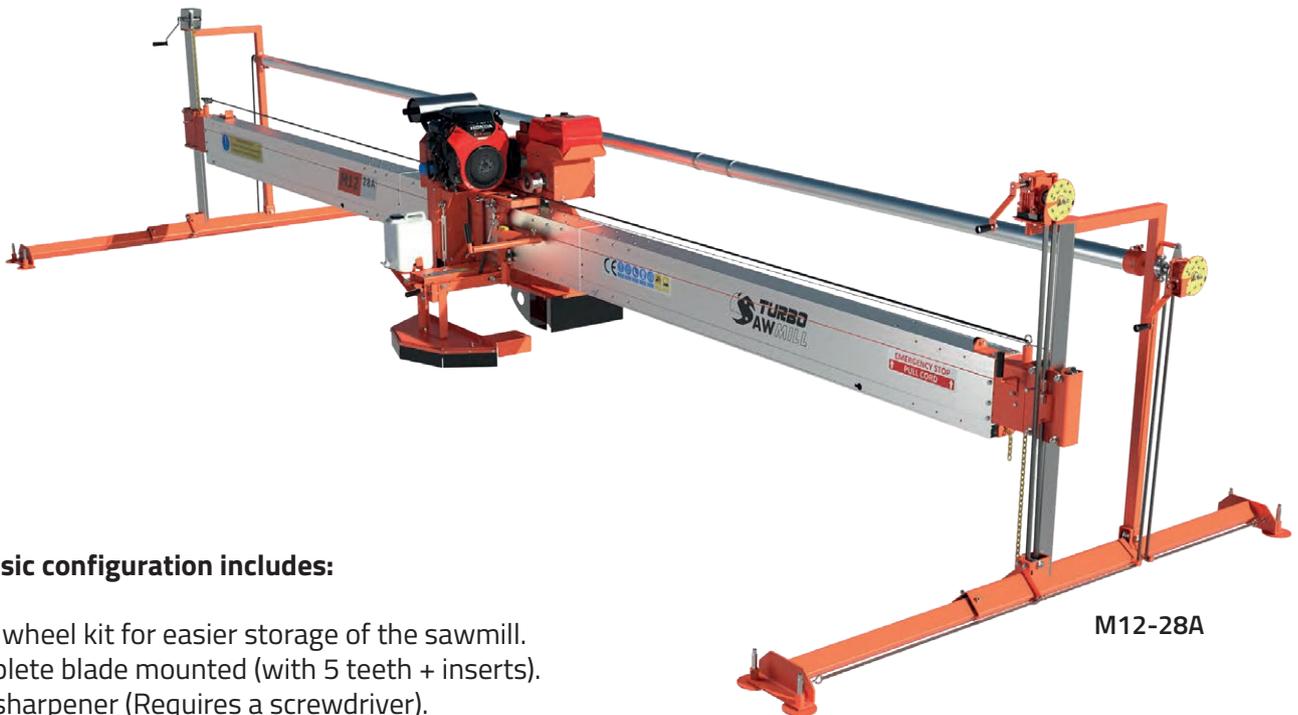

■ **M12:** Mobile sawmill with automated feed.

**PROFESSIONAL** - For production sawmilling, powered through the cut with a lever.

**Introducing the automated cutting solution: a powerful and versatile model equipped with a robust 30HP Honda gasoline engine. This high-performance tool is designed to meet your toughest cutting needs, offering efficiency and reliability in every job. It cuts boards up to 12inch x 12inch and can double cut up to 11inch x 24inch, ensuring you get the precise results you need every time. Now built with premium stainless steel and alloy construction.**

For logs preferably of 4ft diameter although all diameters can be cut.  
Cutting length of 20ft. Extendable to 26ft optionally.

- Double cut possible. No need to rotate the frame.
- One run produces an edged board.
- Automatic feed.
- Electric start.
- Easily replaceable 5-tooth blade.
- Single end horizontal and vertical sizing.
- Easy to operate and maintain.

**The basic configuration includes:**

- Jockey wheel kit for easier storage of the sawmill.
- 1 complete blade mounted (with 5 teeth + inserts).
- Tooth sharpener (Requires a screwdriver).
- 2 years sawmill warranty.
- 3 years engine warranty.
